

BREAST CARE

INFORMATION

Lourdes Breast Care Center is fully accredited and provides comprehensive care for all types of breast conditions.

We offer:

- A complete range of imaging services, including on-site digital mammography and ultrasound
- Clinical evaluation of breast problems
- On-site diagnostic procedures including fine needle aspirations, stereotactic core and mammotome biopsies, needle localization and excisional biopsies
- Long-term monitoring for women who are at higher risk or who have difficult-to-examine breasts
- Social services and support group information
- The latest cancer treatment option in conjunction with Lourdes Regional Cancer Center

In the Community

Lourdes offers screening digital mammography services at our Vestal Medical Services located at 1020 Vestal Parkway, Vestal.

In addition, Lourdes Mission in Motion program offers breast exams, mammography screenings, pap smears pelvic exams and education throughout

(over)

the region. Women may use the mobile mammography unit for breast and cervical screenings if they:

- Have no current breast problems or symptoms
- Have not had a breast biopsy within the last five years, and any prior biopsy was benign
- Have no history of breast surgery other than biopsy
- Have no history of breast reduction or implants

PROGRAMS AND FEES

Screening Program

Free clinical breast exams for women who are asymptomatic are available on Thursday afternoons at the Breast Care Center. Call to make an appointment.

Program Fees

We bill all forms of insurance, including Medicaid. For specific coverage information, we recommend you contact your insurance carrier. We also offer no-cost or low-cost mammograms for income-eligible women.
